Function Challenges " Beautiful Functions | Mr. Orr is a ...-

Tue, 29 Jan 2013 14:43:00 GMT - Back in the university I programmed a simple Java applet that plots function from complex plane to complex plane. One of the most beautiful functions I run into was $z+1/z$

What is the most aesthetically beautiful graph/surface in ... -

Mon, 01 Oct 2018 18:38:00 GMT - And many scientists admit they are often fond of particular formulas not just for their function, but for their form, and the simple, poetic truths they contain. While certain famous equations, such as Albert Einstein's $E = mc^2$, hog most of the public glory, many less familiar formulas have their champions among scientists.

BeautifulSoup: Web Scraping with Python -

- But sometimes the markup is just malformed, and the underlying parser can't handle it. So BeautifulSoup runs regular expressions against an input document before trying to parse it. By default, BeautifulSoup uses regular expressions and replacement functions to do search-and-replace on input documents.
