Wed, 10 Oct 2018 20:08:00 GMT - A hammer is a tool that, usually featuring a head fixed to a handle (also called a haft or helve), delivers a blow to an object to break it apart, drive it into another (e.g. a nail or spike), or beat it into a desired shape (as with a forge).. The claw hammer is commonly found in an inventory of household tools. Other types of hammer vary in shape, size, and structure, depending on their ...
